Subject: Explanation on the operation of Makedonski Telekom AD - Skopje for the period from 01.01.2021 until 30.06.2021

The following analysis refers to the Unaudited Financial statements of Makedonski Telekom (MKT) for the period 01.01.2021 - 30.06.2021, prepared in accordance with the International Financial Reporting Standards (IFRSs).

I Revenues

The sales revenues in the first six months of 2021 amounted to MKD 5,391,016 thousand, which represents increase of 4.1% compared to the same period of the previous year.

Mobile services

Mobile voice and non-voice services

On the mobile market, MKT has a **market share of 47.7%** (internal estimation, compared to the 46.4% at the end of the same period of the previous year). The subscribers' base at the end of the first six months of 2021 amounts to 1,099 thousand subscribers and it is decreased by 5.2% compared to the same period of the previous year.

At the end of the first six months of 2021, the revenues from **mobile retail voice and mobile non-voice services** marked an increase by 3.3% compared to the same period of the previous year.

The increase is mainly due to the higher number of post-paid subscribers mostly in residential customers and increase of **ARPU (Average Revenue Per User)**. Also, we have increase of the revenues from non-voice services, mostly as a result of the increased revenues from SMS, partly compensated with decline of the prepaid mainly due to pre to post migration but also supported by negative effect from COVID 19 Pandemic.

The revenues from wholesale voice services at the end of the first six months of 2021 marked an increase by 8.3% compared to the same period of the previous year mostly due to increased mobile traffic supported by higher volume in international incoming mobile terminating traffic.

Kej 13 Noemvri No. 6, 1000 Skopje, R. North Makedonija

The **blended ARPU (Average Revenue Per User)** for voice and nonvoice services marked an increase by 13.4% compared to the same period of the previous year amounting to MKD 390 mostly driven by the increase of post-paid subscribers' portion in the total subscribers' base.

Fixed services

Fixed voice and non-voice services

MKT has managed to maintain the **leading position on the fixed voice market with 62.3%** (internal estimation, compared to the 62.1% at the end of the same period of the previous year) or 222.7 thousand customers at the end of the first six months of 2021.

The **voice retail revenues** in the first six months of 2021 in the fixed segment services have decreased by 1.2% compared to the same period of the previous year due to decreased outgoing traffic by 6.8% as well as the decreased international incoming traffic. At the end of the first six months of 2021 the number of customers in the fixed voice (including the customers using the convergent services) marked an increase by 3.1% compared to the same period of the previous year.

At the end of the first six months of 2021, **the number of total BB accesses** (including the customers using the convergent services) is increased by 5.0% and amounts 216.9 thousand compared to 206.6 thousand at the end of the same period of the previous year. **The number of BB subscribers (excluding wholesale)** at the end of the first six months of 2021 has increased by 6% and amounts 194.1 thousand compared to 183.2 thousand at the end of the same period of the previous year. The **broadband Internet market share** at the end of the first six months of 2021 **amounts to 49.5%** (internal estimation, compared to the 48.1% at the end of the same period of the previous year). The investments in the optic network have resulted in a continuous increase of the number of accesses to the optic network in the country. At the end of the first six months of 2021 Makedonski Telekom has enabled more than 233 thousands accesses to the optic network which is an increase by 12% compared to the same period of the previous year.

Regarding the **TV market**, MKT has a leading position with **market share of 34.4%** (internal estimation, compared to the 32.7% at the end of the same period of the previous year) of the total TV market. The IPTV (digital television via Internet protocol) service, with its high quality, interactivity and the unique TV experience, is excellently accepted on the market and MKT at the end of the first six months of 2021 achieved an increase of the number of IPTV customers (including Magenta1, 3 Play and other TV services) by 4.7% compared to the same period of the previous year, which has resulted in a customer base of 144.5 thousand customers at the end of the first six months of 2021.

The **revenues from retail Internet** at the end of the first six months of 2021 have increased by 3.3% compared to the same period of the previous year.

On the same meeting held on 17 June 2021 the Shareholders' Assembly of the Company adopted a Resolution by which part of the net profit generated as per the Financial Statements of the Company for the year 2020 in accordance with the adopted international financial reporting standards published in the "Official Gazette of the Republic of North Macedonia" to be transferred in retained earnings for investments in qualified tangible and intangible assets in amount of MKD 345,474 thousand for purpose of tax reliefs utilization in 2021.

V Plan and expectations for the next period

In the past period MKT has faced with many challenges as a result of the COVID - 19 Pandemic, but due to prompt accommodation to the working conditions and flexibility, the Company has successfully overcome all obstacles which is confirmed with the positive results at the end of the first half of 2021 which marked continuing growth trend.

Revenue growth is mostly result of the increase of the subscribers base especially in the residential segment, as well as wholesale in the TV segment and growth in the interconnection segment.

This positive result of MKT at the end of the first half of 2021 provides the necessary prerequisites for further continuing of the Strategy for overall orientation towards customers and being leader in the digitalization.

VI COVID – 19 Effect

In 2020, the coronavirus spread globally, and its negative impact gained momentum. The management closely monitors the impact of the pandemic on the operations and provides further updates to the stakeholders as the situation evolves. Furthermore, the management is in close communication with the local state institutions and remains compliant with official guidelines.

The Company responded to the COVID-19 situation swiftly. The Company continues to meet the increased demand for connectivity through its network and has not identified any events which could jeopardize the going concern of its operation, furthermore based on the management's assessment of the future cash flows no underperformance is expected for the long term.

Management paid particular attention to the solvency of customers due to COVID-19 however, based on experiences of last months and expectations considering the future COVID effects, no material effects on bad debt rate.

Investigation into certain consultancy contracts

On 13 February 2006, Magyar Telekom Plc., the controlling owner of the Company, (via Stonebridge Communications AD - Skopje, majority shareholder of the Company), announced that it was investigating certain contracts entered into by another subsidiary of Magyar Telekom Plc. to determine whether the contracts were entered into in violation of Magyar Telekom Plc. policy or applicable law or regulation. Magyar Telekom's Audit Committee retained White & Case, as its independent legal counsel to conduct the internal investigation. Subsequent to this, on 19 February 2007, the Board of Directors of the Company, based on the recommendation of the Audit Committee of the Company and the Audit Committee of Magyar Telekom Plc., adopted a resolution to conduct an independent internal investigation regarding certain contracts in Republic of North Macedonia.

Based on publicly available information, as well as information obtained from Magyar Telekom and as previously disclosed, Magyar Telekom's Audit Committee conducted an internal investigation regarding certain contracts relating to the activities of Magyar Telekom and/or its affiliates in Montenegro and Republic of North Macedonia that totalled more than EUR 31 million. In particular, the internal investigation examined whether Magyar Telekom and/or its Montenegrin and Macedonian affiliates had made payments prohibited by U.S. laws or regulations, including the U.S. Foreign Corrupt Practices Act (the "FCPA"). The Company has previously disclosed the results of the internal investigation.

Magyar Telekom's Audit Committee informed the U.S. Department of Justice (the "DOJ") and the U.S. Securities and Exchange Commission (the "SEC") of the internal investigation. The DOJ and the SEC commenced investigations into the activities that were the subject of the internal investigation. On 29 December 2011, Magyar Telekom announced that it had entered into final settlements with the DOJ and the SEC to resolve the DOJ's and the SEC's investigations relating to Magyar Telekom. The settlements concluded the DOJ's and the SEC's investigations. Magyar Telekom disclosed the key terms of the settlements with the DOJ and the SEC on 29 December 2011. In particular, Magyar Telekom disclosed that it had entered into a two-year deferred prosecution agreement (the "DPA") with the DOJ. The DPA expired on 5 January 2014, and further to the DOJ's request filed in accordance with the DPA, the U.S. District Court for the Eastern District of Virginia dismissed the charges against Magyar Telekom on 5 February 2014.

In relation to the local investigation by the state authorities in Republic of North Macedonia and further to the previously disclosed information in the Financial Statements of the Company for the preceding years, the criminal procedure against former managers of the company is still ongoing at first instance criminal court.

We have not become aware of any information as a result of a request from any regulators or other external parties, other than the previously disclosed, from which we have concluded that the financial statements may be misstated, including from the effects of a possible illegal act.
